

Canada's Monthly Employment Changes

Full-time vs part-time contribution to the monthly change · Latest: July 2026

Notes: Month-over-month change in employment, seasonally adjusted. Full-time is 30 or more hours a week at the main job, part-time is fewer. The bars stack to the black line, which is the total change. These are survey estimates, so a small monthly change is within sampling error and one month on its own is not a trend.
