

Where Have Canada's Jobs Grown Since 2019?

Employment by sector, indexed to Dec 2019 = 100 · Latest: July 2026

Notes: Goods-producing is agriculture, resources, utilities, construction and manufacturing; services-producing is everything else, and about four in five Canadian jobs. The dark line is all industries - the two others are its parts, not three separate sectors. Seasonally adjusted. Shaded: recessions (C.D. Howe Business Cycle Council).
