

Inflation across Canada, province by province

All-items CPI, year-over-year (green) vs the national rate (grey) · July 2026 · panels ordered highest to lowest

Notes: Year-over-year change in each province's all-items Consumer Price Index vs Canada as a whole (grey line). The dashed line marks 2%, the midpoint of the Bank of Canada's target range - which is set on Canada-wide all-items CPI, not on any province.
