

Where Canada's Exports Go, and Where Its Imports Come From

70% of exports go to the U.S.; 60% of imports come from it · Latest: June 2026

Notes: Merchandise trade, balance-of-payments basis, seasonally adjusted, current (nominal) dollars - a level early in this window is not comparable in real terms with one at the end. Rest of world = all countries less the United States. Shaded: recessions (C.D. Howe Business Cycle Council).
